 PREFERRED SIDEWAYS Breaking Higher	 ALTERNATE SIDEWAYS Aproaching Upside Breakout
---	---

SYMBOL	DIRECTION	BUY ZONE	SELL ZONE	RISK / REWARD	VEHICLE
GERN	UP	\$3.60 - \$4.00	\$4.80 - \$5.00	- \$0.20 / + \$1.00	Stock

GERN recently broke upward outside of a “pennant-ish” pattern. The end of March saw a huge run up accompanied by large volume and has since digested those gains. The recent breakout is bullish, and we can measure the potential move using measured move analysis. By the end of the year I think we can expect to see the stock back near \$5.00, with very defined risk to the downside. This is a speculative name so adhere to strict risk management rules, but overall I believe the upside far outweighs the downside.
